Company,

Mr. Julius Hobson in Favor of Putting Up Temporary Building.

Mr. Julius Hobson, member of the Council, in speaking last night of the general concern being displayed as to what some term the dilatoriness of the ARRESTS erecting an auditorium for the many conventions scheduled to meet in this matter were delayed much longer, it would be a practical impossibility to put up a permanent building in time for just

Asked as to what he thought of the Street site, which is so ardently being Street site, which is so ardently being pushed by Alderman Robert Le Masurier, he replied that he is in favor of almost any site so long as the matter of erecting the auditorium is assured, but added that he thought there was now too little time for it to be considered. He expressed himself as being more in favor of a plan for the city to select some centrally located vacant piece of property and erect thereon a temporary structure, large enough and suitable to

select some contrally located vacant piece of property and erect thereon a temporary structure, large enough and suitable to meet the demands which the conventions to come here will require. He said that as these conventions have been invited to make Richmond their meeting place, the responsibility of erecting a suitable place rests upon the city, and that it is absolutely essential and necessary that some definite movement be placed on foot at once.

While Mr. Hobson's doubt that there is too liftle time in which to erect a permanent structure creditable to the city may be worthy of the deepest consideration, others who are interested in the Sixth Street site and believe that it is the most suitable place that can be found anywhere in the whole city are firm in their conviction that a suitable auditorium can be erected on this property and in planty of time for the conventions. As the matter now stands, Captain Masurler's suggestion seems to be meeting with the most favorable consideration from the general run of people, and many believe that it is the only solution of the problem. It is pretty senerally conceded that an auditorium must be built, the most favorable consideration conceded that an auditorium must be built. and not be always dependent upon the temporary use of other structures. On This point Manga either argument for or against a permanent structure, to be owned by the city.

Virtuous Deadwood,

For the first time in its history there is not a single county prisoner in the Lawrence county jell, and the board bill for county prisoners in June was less than for any month during the last thirty years. Only a few years ago there were forty-two licensed liquor houses in Deadwood; last July only thirty licenses were issued, and this year the number has fallen to nineteen. The off time wild and woolly Deadwood is a thing of the past, and nothing but tombstones and memory remind one of the days of Deadwood Dick, Calimity Jane, Wild Bill Hickok and the Beauty of Brimstone Bar.—Deadwood Correspondent St. Paul Dispatch.
